C1340 CONSTRUCTION OF CIVIL WORKS FOR OIL CONTAINMENT SYSTEM INSTALLATIONS AT LIVERPOOL 330KV SUBSTATIONS

Contract Value: \$1,159,700

Client: Transgrid

Gongues Constructions completed the oil containment works to Transgrid's Liverpool Substation in August 2013.

The project consisted of the following elements:

- Construction of New Secondary Oil Containment tank (30m x 20m x 2.4m)
- New Oil Containment drainage system
- Modification of existing Primary Oil Containment tanks and pipework

The project was completed 4 weeks ahead of programme.

Gongues Constructions has approx 30 Transgrid PSSR Cat 3.3 trained personnel including Site Supervisors, Carpenters, Steel Fixers, Concreters, Plant Operators and Project Management staff.
