## Major Concrete Structures at Morpeth WWTW

Contract Value: \$852,400

Final Value: \$1,722,000

Client: Hunter H2O for HWC

Client Contact: Cameron Black

This project was part of an EPCM contract awarded to Hunter H2O by Hunter Water Corporation for upgrade works at Morpeth WWTW. Works undertaken by Gongues included the following:

- Construction of a Inlet Lift Pump Station including 1,400m<sup>2</sup> of Class 1 formwork, 600m<sup>3</sup> of S40 concrete and 120t of steel reinforcement
- Construction of an odour treatment facility concrete slab
- Construction of a new switchroom building including brick and block walls, steel roof trusses and steel roof cladding
- Design, supply and installation of a new air conditioning system to the switchroom
- Supply, testing and installation of DN750 SS pipework
- Supply and installation of aluminium walkways
- Supply of minor fabricated items including hatch covers, handrails and instrument brackets
