

RECENT PROJECTS

STOCKTON ZONE SUBSTATION 11kV SWITCHGEAR CIVIL WORKS

Contract Value: \$1,100,000

Client: Ausgrid

Client Contact: Bernie Daniels

Gongues was awarded this contract in June 2020.

The purpose of the works was to facilitate the installation of a Mobile Equipment Room (MER) and ultimately, replacement of the 11kV switchgear.

Works included:

- Modification of stormwater drainage
- Construction of new electrical pits
- Installation and modification of substation earthing grid
- Excavation for the MER basement
- Construction of the new reinforced concrete MER basement structure
- Excavation and installation of new conduits
- Construction of new cable trenches
- Construction of a new precast concrete fire wall
- Construction of various lighting mast, auxiliary transformer and cable stand footings

The project was completed on time in April 2021.

For this project, Gongues was awarded the Safework Excellence in Work Health & Safety Award for Commercial Projects at the 2021 Master Builders Association of NSW Newcastle Excellence in Building Awards.
