## Sewage Pumping Station WW13C & WW14B Refurbishments

**Contract Value:** \$1,803,250

**Final Value:** \$1,989,485

**Client:** Central Coast Council

**Client Contact:** Glenn Crocker

The scope of this project involved design and refurbishment of two Sewer Pump Stations. Works included refurbishment of the Wet Wells, valve pits, Electrical works and Civil works inclusive of a Sea Wall and Retaining wall.

Wet well upgrades included the replacement of pipework, pumps and metalwork, and the installation of new actuators. The existing switchboard and consumer mains were also replaced.

Concrete work construction was also performed and included the slab between wet well and pit valve, driveway and stairs/pathways.

The project was completed in December 2024.
